Re: *Ex Parte* Presentation in CC Docket No. 01-92 and CC Docket No. 96-262

Dear Ms. Dortch:

On January 27, 2004, the undersigned, on behalf of AT&T Wireless Services, (“AWS”), met with Matthew Brill, Legal Advisor to Commissioner Kathleen Abernathy, concerning the provision of services by Competitive Local Exchange Carriers (“CLECs”) to process and deliver 8YY traffic originated by AWS’s customers. AWS explained that CLECs provide AWS a valuable and important service in processing and handling 8YY traffic, and confirmed that the types of CLEC/CMRS arrangements at issue are long-standing and common industry practice. AWS expressed support for the points already made in the record explaining why such arrangements were permissible under Commission precedent and why any change in this policy should be implemented on a prospective basis.

Pursuant to Section 1.1206(b)(2) of the Commission’s rules, this letter is being provided for inclusion in the public record of the above-referenced proceeding.

Very truly yours,

Michael H. Pryor  
*Counsel to AT&T Wireless Services, Inc.*
